# Course #202: Health and Safety

Field inspections involve a certain degree of risk. Inspections of wastewater treatment plants, manufacturing plants, laboratories and mines are each associated with various hazards. A safe field inspection depends on the recognition, evaluation and control of hazards. Cal/OSHA regulations and established safety policies are continually being updated. This course/manual has been assembled as a "hands-on" tool for all personnel conducting field activities.

**October 6, 2010**  
**9:00 am – 3:00 pm**  
**Mendocino County APCD**  
**501 Low Gap Road**  
**Ukiah, CA 95482**
